

knee
Cut out 1 as shown

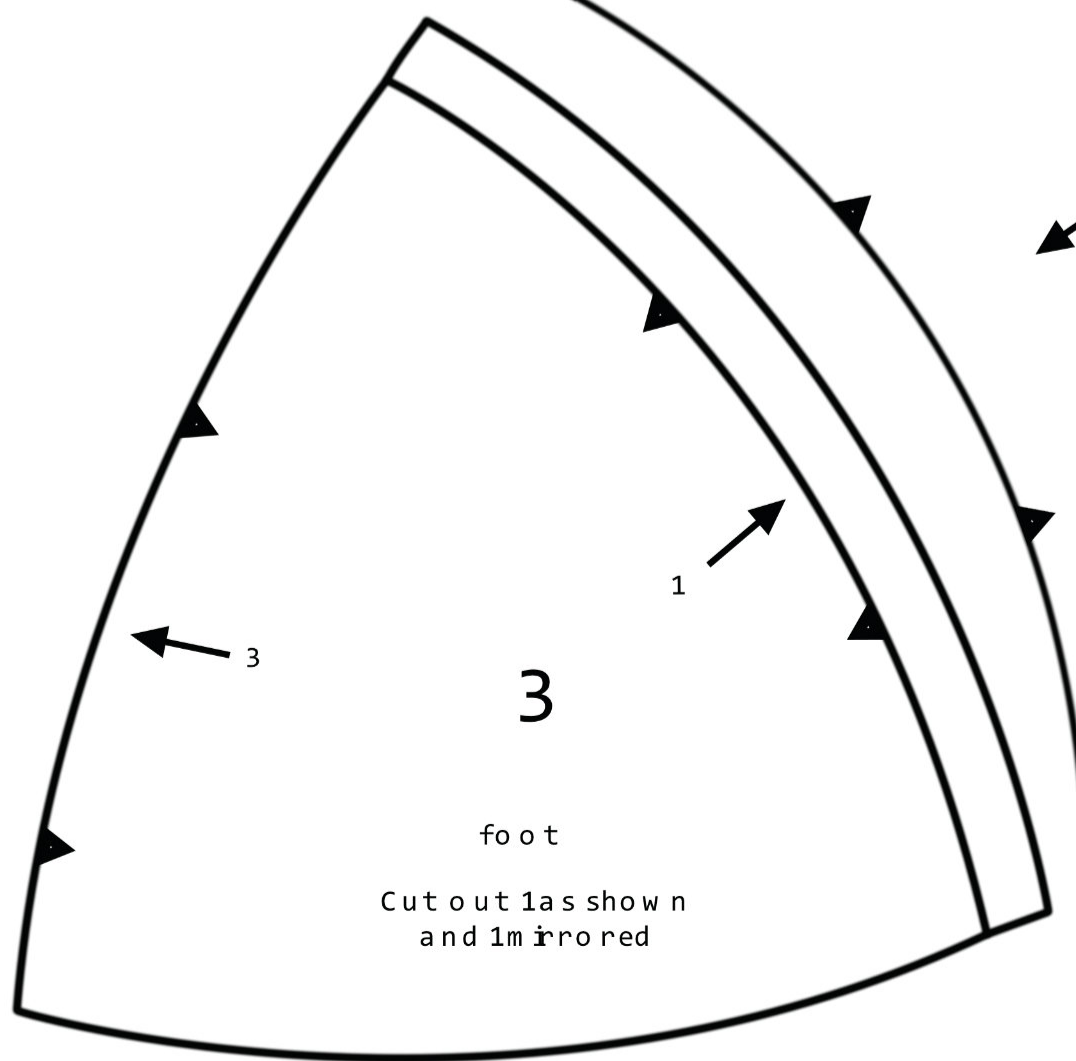

Build with 1cm thick EVA Foam
shoes are 50cm tall
made to fit someone at 175cm when
printed at 100% scale
resize as needed.
this can be done either by using
photoshop or adobe reader.
EG :if you want them slightly
smaller print at 80% using adobe
reader.
use the poster option to have it
generate the pattern across
several pages to scale
